## Steve Bowe Releases "Prayers"

BoweMusic is pleased to announce the release of "Prayers", the new single by Steve Bowe. "Prayers" is taken from Steve's forthcoming album, "Soundscapes".

The track evokes the different, yet also similar, approaches to worship as presented by disparate world religions.

Making plentiful use of audio prayer samples set against a laid back, almost trance like rhythm and ethereal melody, "Prayers" is a prime example of the approach to music Steve is taking with "Soundscapes". Each track on the album is designed to conjure an image or emotion using carefully crafted sounds and rhythms.

"Prayers" is available to download from iTunes and is also available on Spotify. Further information and audio samples are available on the BoweMusic website.
